

GrowUp Greenwalls

Custom and Pre-Built Moss Walls

Benefits of Biophilia

"Biophilia" is defined as the innate human love of nature. It has been proven time and time again that people benefit from being surrounded by plants. The presence of plants in indoor spaces

Moss Wall Benefits

No Maintenance

The preserved moss GrowUp Greenwalls utilizes requires no additional maintenance post installation.

No Additional Lighting

With no additional lighting required, moss walls are versatile to be placed anywhere indoors.

No Watering

Moss walls do not need to be watered, simplifying the costs.

Flexible Design

With our experts' help, we can create the perfect moss wall for your professional or residential space.

Noise Reduction

Moss walls act as noise dampeners, creating quieter, peaceful spaces. Moss walls reduce ambient noise and lessen echo in loud offices, restaurants and homes.

Reducing noise in the workplace increases concentration, decreases stress levels and creates a more welcoming environment.

Quieter spaces are more inviting, improving moods and boosting creativity.

What is preserved moss?

Preserved moss is natural moss that is no longer living. The moss we use has been preserved through environmentally-friendly processes to be utilized for moss walls.

Preserved moss comes in a variety of colors and textures, giving every moss wall a natural and unique look. The preservation process ensures there will be no color loss once the moss wall is installed.

Because our moss is completely preserved, it requires absolutely no maintenance. Moss walls do not need to be watered or misted and require no light.

Moss Varieties

Sheet Moss

Moss Moss

Forest Moss

Shag Moss

Pillow Moss

Royal Pool Moss

Spanish Moss

Mountain Moss

Reindeer Moss

Our Moss Walls

Our GrowUp team handmakes all moss walls in the US, using preserved moss. Because our moss walls are fully handmade and use natural moss, no two moss walls are exactly the same.

Custom Moss Walls

Moss walls can be created in any size or shape to fit the needs of the space. Colors and textures can be used to create unique and interesting patterns within a moss wall. The customizability of moss walls allows for endless creativity.

nūxventures®

Pre-Built Moss Walls

GrowUp has created Pre-Built Moss Walls to make the moss wall process even easier. Pre-Built Moss Walls come in a variety of shapes and sizes that are ready to be hung on the wall upon arrival. Pre-Built Moss Walls are handmade in America and are all unique due to the design process.
