GrowUp Greenwalls

Curated Replica Planter Arrangements

Designed, ready-to-install plant selections for office planters.

GrowUp

Nature, Perfectly Composed

Curated Replica Planter Arrangements offer a simple, worry-free solution for introducing plants into indoor spaces. Each pre-designed arrangement eliminates the guesswork of plant selection and styling, providing a ready-made composition that enhances interiors instantly.

Ideal for offices, hospitals, and hospitality settings, these arrangements deliver the calming presence of nature where live plants are difficult to maintain. With no need for watering, pruning, or light, they provide lasting color and texture without added upkeep. From sleek contemporary designs to lush natural groupings, each arrangement transforms any space into a more welcoming, nature-centered environment, effortlessly.

Effortless Nature-Inspired Design

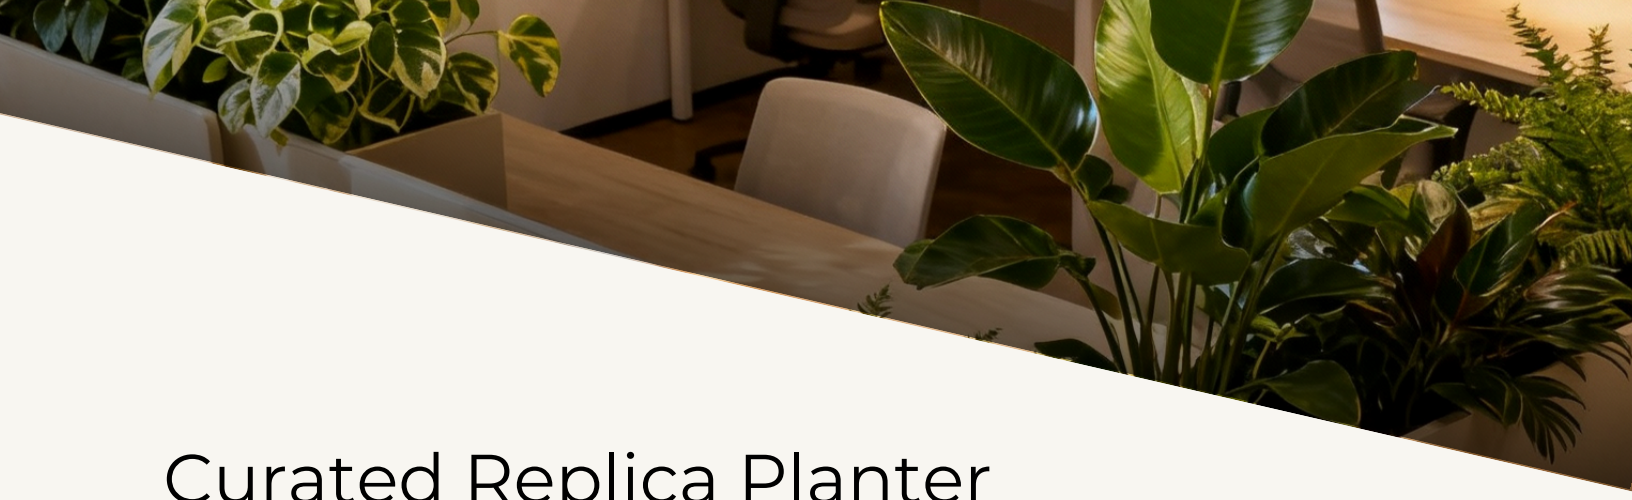

- Ready-to-use plant selections for instant greenery
- Fits standard standing and desktop planters
- Realistic, high-end replica plants
- No water, soil, or pruning requirements
- Always vibrant and perfectly styled

Benefits of Indoor Greenery

- Promotes calm, focus, and productivity
- Reduces noise and soften acoustics
- Creates uplifting, collaborative environments
- Enhances overall interior aesthetics

Specification Details

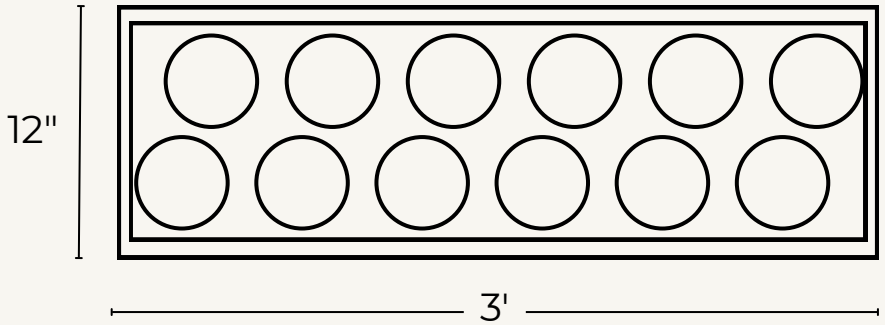

Curated Replica Planter Arrangements are sized to fit standard planters as well as custom planters. Standard 6"-wide planters use approximately 1 arrangement per 3 linear feet, while wider standard planters (10"–12") require 2 arrangements per 3 linear feet for a fuller look.

*Planter unit is not included in the Curated Replica Planter Arrangement package and must be sourced separately.

CURATED REPLICA PLANTER ARRANGEMENTS

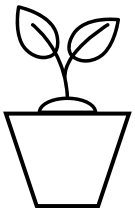

1 Arrangement

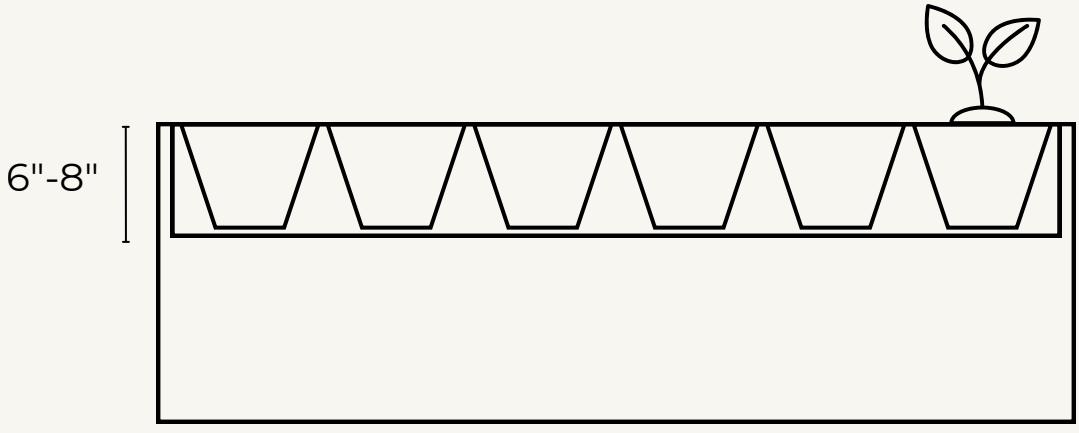

2 Arrangements

In planters 10" to 12" wide, it is recommended to use 2 arrangements for a fuller look. In arrangements with larger, fuller plants, 1 arrangement may be sufficient if the client does not want a full look. Use the sizing calculator to determine the number of arrangements needed.

Replica Potted Plants are placed in the planter bed. Depending on the chosen arrangement, either Spanish moss or white marble pebbles are placed around the plants to fill the planter.

*Planter not included.

Calculate the Number of Arrangements Needed

Calculating the Number of Arrangements required
Use the table below to determine the number of arrangements required for the size of your planters. Use the length of the planter (left) and the width of the planter (top) to find the corresponding number of arrangements.

		Width (inch)						
		6"-8"	**9"-12"**	**13"-15"**	**16"-18"**	**19"-21"**	**22"-24"**	**24+**
Length (feet)	**3'**	1	2	3	3	4	4	2 arrangements per 3 sqft
	4'	2	3	4	4	5	6	
	6'	2	4	5	6	7	8	
	8'	3	5	7	8	10	11	
	9'	3	5	8	9	11	12	
	12'	4	7	10	12	14	16	
	12+	2 arrangements per 3 sqft						

Example
An 8 foot planter that is 12 inches wide would require 5 arrangements.
For measurements that fall on the larger side of the above ranges, it is recommended to add an extra arrangement for added density.

Installation
The replica plants come potted in 4-inch pots that are placed in the planter beds. Dressing material is included in the arrangement packages. Depending on the chosen design, either Spanish moss or white stones are placed around the plants to fill the empty spaces.

Additional plants and custom designs available on request.
